

Patronage and Promotional Opportunities

The IEEE I2MTC – International Instrumentation and Measurement Technology Conference – is the flagship conference of the IEEE Instrumentation and Measurement Society and is dedicated to the advances on measurement methodologies, measurement systems, instrumentation and sensors with application in all the areas of science and technology. IEEE I2MTC is intended as a catalyst to promote interactions between industry and academia; a wide spectrum of research results will be presented, with many potential practical and industrial applications, as well as industry and application driven developments.

The IEEE I2MTC conference has been held around the world every year since 1986, and in 2019 it will take place in Auckland, New Zealand; the event gathers every year more than 400 international attendees including delegates from academia, undergraduate, graduate and PhD students, researchers and professionals from industry with different technology backgrounds.

This event is the premier opportunity for companies to reach the global thought leaders in instrumentation and measurement - to market products and services to engineers developing instrumentation and control systems and academic researchers developing the next generation of sensors, measurement techniques and standards.

I2MTC 2019 will offer a large and prominent exhibition area closely integrated with all of the social and technical conference activities including coffee breaks, poster sessions, special sessions on industry papers, panel session on “Vision on Instrumentation and Measurement: Industry Perspectives”, product demonstrations and conference live demo sessions. Your exhibit booth will be visible and central to all attendees throughout the conference.

In addition to the opportunity to exhibit, several Promotional Items allow companies to demonstrate their technical leadership and support of the Conference. Please have a look at the following table with fees and benefits for Patrons and Exhibitors. Those interested should contact the conference manager Laura LeBlanc (lleblanc@conferencecatalysts.com) for forms and contracts.
